The Optiflame[®] Fireplace Series

The Revolutionary Built-in Electric Fireplace

 **Dimplex**[®]

The Optiflame® Fireplace Series

The safe and easy-to-install alternative to gas and wood burning fireplaces that looks so REAL

BF33DXP-AU with optional decorative trim fitted

There's nothing quite like the effect of a fire. It creates a wonderful feeling of comfort and cosiness. But open fires can be inconvenient and messy.

This is why so many people around the world appreciate the benefits of using a Dimplex Optiflame® electric fire.

The OptiFlame® patented technology provides all the ambience of a real fire without the installation constraints

of a conventional fireplace, or the safety concerns of an unvented fireplace. They are 100% energy efficient, do not waste heat, and the flame effect can be enjoyed without the heat if required.

The Dimplex Optiflame Fireplace Series with its ready-to-fit surrounds is the ideal solution for instant ambience for your home.

Instant ambience

The look and feel of a real fire without the mess, constraints and hassles.

Safe

Glass is safe and cool to touch, no combustibles to worry about. Approved to Australian standards.

Easy installation

Quick installation. No piping. No venting. No exterior wall access is required. No gas connections to worry about. Simple connection to power supply.

Four season enjoyment

Operates with or without heat.

Air quality

No particulates from combustion. No moisture is added to the room. Less risk of dangerous moulds forming.

Economical

Low cost installation. No annual service costs. Costs only cents per day to operate flame.

Versatile

Absolute design flexibility – installs anywhere – bedroom, kitchen, including below ground level and inside walls.

Backed by Dimplex

purifire™

Air treatment system (BF33DXP-AU & BF39DXP-AU)

Breakthrough air treatment system cleans 24/7

The BF33 and BF39 electric firebox features the exclusive Purifire™ air treatment system – the world's first integral air filtering electric fireplace.

- Uses a standard size 25cm x 50cm high-efficiency washable filter.
- Air filter operates with the heater or maybe run with the air-circulating fan only to provide continuous, quiet cleaning.
- Exceeds MERV 10 (Minimum Efficiency Reporting Value) rating – filters as small as 1 micron.
- Circulates and cleans the air of an average room four times per hour. (Based on 3.6m x 4.3m room)
- Filter needs to be washed/replaced only once per year on average.
