# Leading Fires

There's nothing quite like the flame effect of a fire. It creates a wonderful feeling of comfort and cosiness with the added dimension a warm glow brings to any room. Unlike wood fires that can be inconvenient and messy, **Dimplex Electraflame** electric fires require no installation and are 100% efficient, bringing you an incredibly realistic flame effect at the flick of a switch.

Designed with a patented 3D flame effect, these electric fires generate realistic simulated flames from an electric source and creates the illusion of real flames emanating from the centre of an enhanced depth fuel bed to provide a realistic glow that can be enjoyed throughout the year.

As all **Dimplex Electraflame** fires are designed with this technology, they require no cleaning or maintenance making it easy to install in virtually any location in the household.

This is why so many people around the world appreciate the benefits of using a **Dimplex Electraflame** electric fire.

Whatever your taste - ultra modern, traditional or classic, Dimplex has a fire to suit your decor and lifestyle.

## Realism

Dimplex invented the modern electric fireplace and continues to lead the way with exclusive technologies that dazzle the eye and seduce the senses. Our patented 3D effect gives the fire its depth and dancing flames. And it is something you can only find on electric fireplaces.

When you buy you know you're getting the original... and the best.

Enjoy the unique benefits of Dimplex electric fireplaces and create a warm focal point for your home.

- Dimplex electric fires require no flueing and is extremely safe, no exposed flames or hot glass to worry about.
- 100% efficient with no wasted energy.
